

# How to Get Out of Debt in 72 Hours Without Borrowing One Thin Dime!

Get answers to all of your questions about Chapter 7 bankruptcy.

Are you being harassed by relentless creditors and collection agencies due to an unfortunate job loss or downsizing? Are your bills past due? Do you constantly have more month left over than money? Has a vehicle been repossessed or in danger of being repossessed? Are your wages being garnished?

Well, if you've answered yes to any of the previous questions, believe me, you are not alone. We are currently living in one of the worst economic crises in United States history. Wall Street is suffering and has managed to waste billions of dollars of our retirement funds. But, they live 'large' and continue to pay themselves huge bonuses at our expense.

Despite all this terrible news, *'there is a light at the end of the tunnel.'* In other words, you can do something about it. As an American citizen, you have certain rights ensured by our founding fathers for situations like this. The one secret weapon that you have as an American citizen is your right to protection under bankruptcy law.

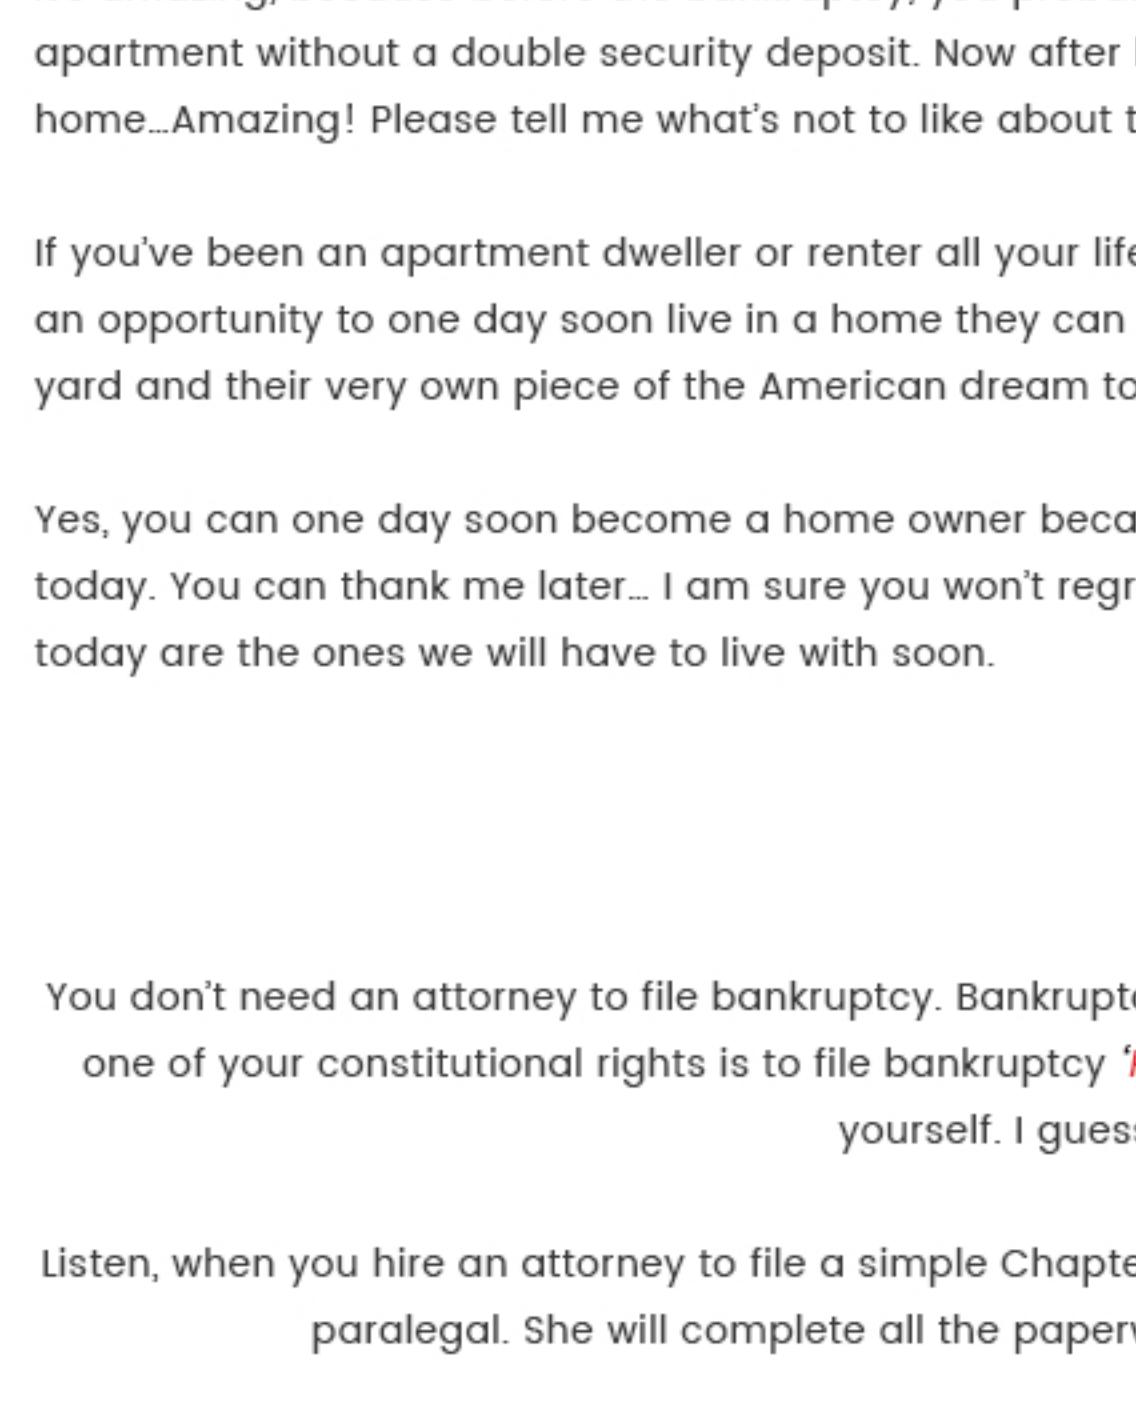

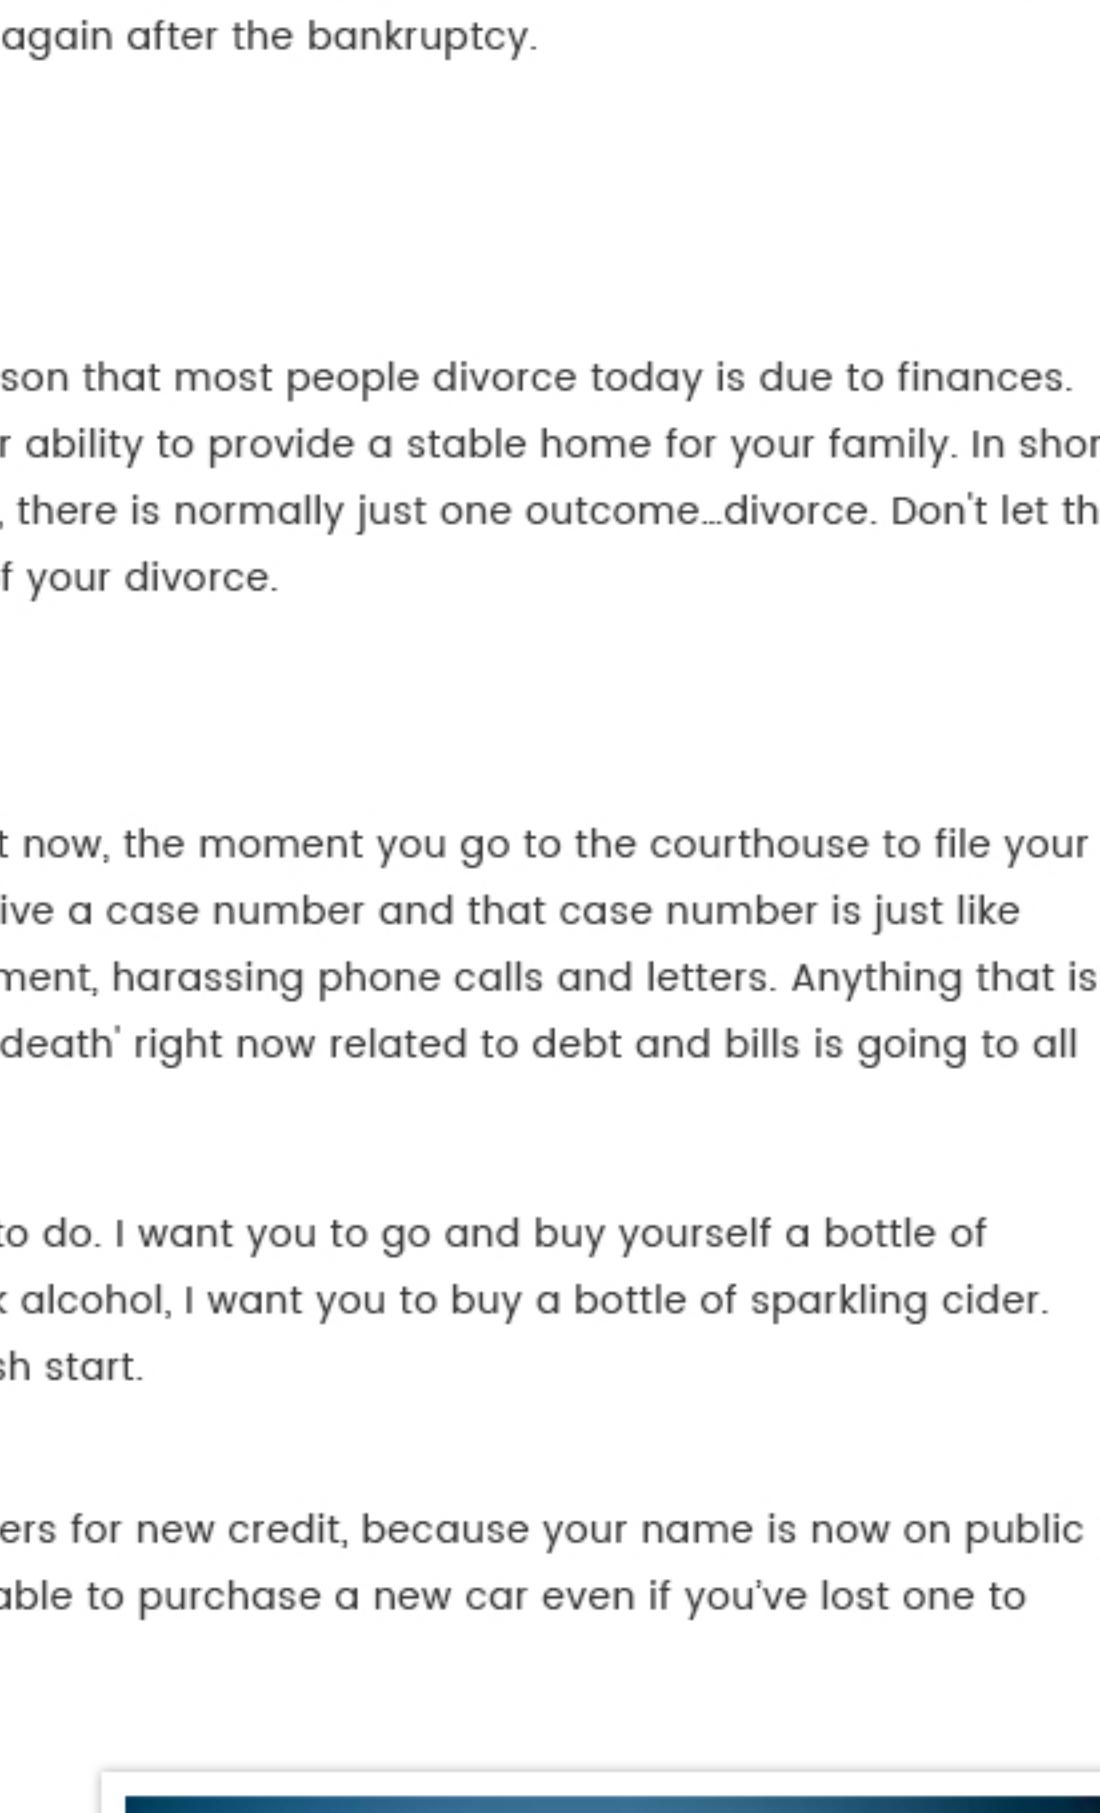

Now bankruptcy isn't for everyone. It is only for those people who believe that they are too far *'under water'* to ever recover under normal circumstances. Those people who work hard every day, just to find that at the end of the month, there is rarely enough money left to pay all their basic living expenses.

## Bankruptcy is NOT Bad!

If you have followed the news in recent times, you may recall that many big businesses have sought protection under bankruptcy. Huge companies like General Motors and AIG have used the same rights that all citizens have to get a fresh start for their companies. After filing bankruptcy and restructuring their debts, these businesses are now back in the "black" and as profitable as ever.

There is a lesson here for those swift enough to catch it. Bankruptcy is a way for ordinary Americans to get out from underneath of years of bad debt and get a fresh start. It is just like when a botanist prunes back the dead branches from an old half dead tree; then allows new growth to begin. Within a few months, that tree begins to sprout fresh, new, lush green branches. Filing bankruptcy can do the same for you.

By filing bankruptcy, you can literally prune away years of unhealthy bad debts and get a fresh start. In fact, shortly after discharging from bankruptcy, your credit rating will most likely be much better than it was before the filing...like that tree in the example above.

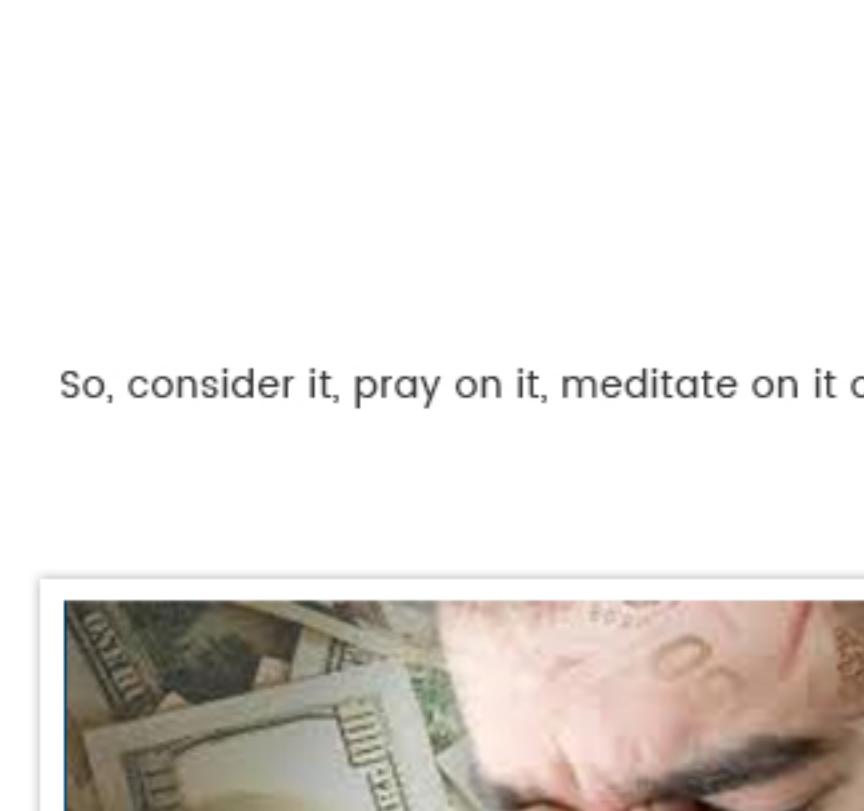

## Bankruptcy in the Bible

So, I want you to go ahead and take a deep breath. Think about it and pray about it. Ask your God if this is the right thing for you to do. Please don't feel bad about considering filing bankruptcy, because it is a concept that comes from the Bible. According to Deuteronomy 15:1-2, *"At the end of every seven years thou shalt make a release. And this is the manner of the release: Every creditor that lendeth ought unto his neighbor shall release it; he shall not exact it of his neighbor, or of his brother; because it is called the Lord's release."*

United States bankruptcy law, which is based on principles found throughout the Bible, discusses the forgiveness of debt and helps overburdened debtors by allowing them to make a fresh start economically. God's law provided that the borrower would keep property so that the borrower would not be forced to enslave themselves again just to survive. For the same reason, modern bankruptcy law allows debtors to keep certain property when they declare bankruptcy. This gives debtors a fresh start and discourages them from becoming borrowers again after the bankruptcy.

## Debt and Divorce

Too much debt can cause a marriage to fail. According to [www.drphil.com](#), the number one reason that most people divorce today is due to finances. Struggling financially too long can make significant others become fed up and lose all trust in your ability to provide a stable home for your family. In short, this can often lead to a loss of confidence in you as a provider. When something like this happens, there is normally just one outcome...divorce. Don't let the overwhelming burden of too much debt be the cause of your divorce.

## Stop the 'Bleeding'

Look, if your wages are being garnished right now, the moment you go to the courthouse to file your completed bankruptcy petition, you will receive a case number and that case number is just like 'magic.' You will be able to stop any garnishment, harassing phone calls and letters. Anything that is getting under your skin and 'bugging you to death' right now related to debt and bills is going to all stop!

When that happens, here's what I want you to do. I want you to go and buy yourself a bottle of champagne and celebrate. If you don't drink alcohol, I want you to buy a bottle of sparkling cider. I want you to toast to your new financial fresh start.

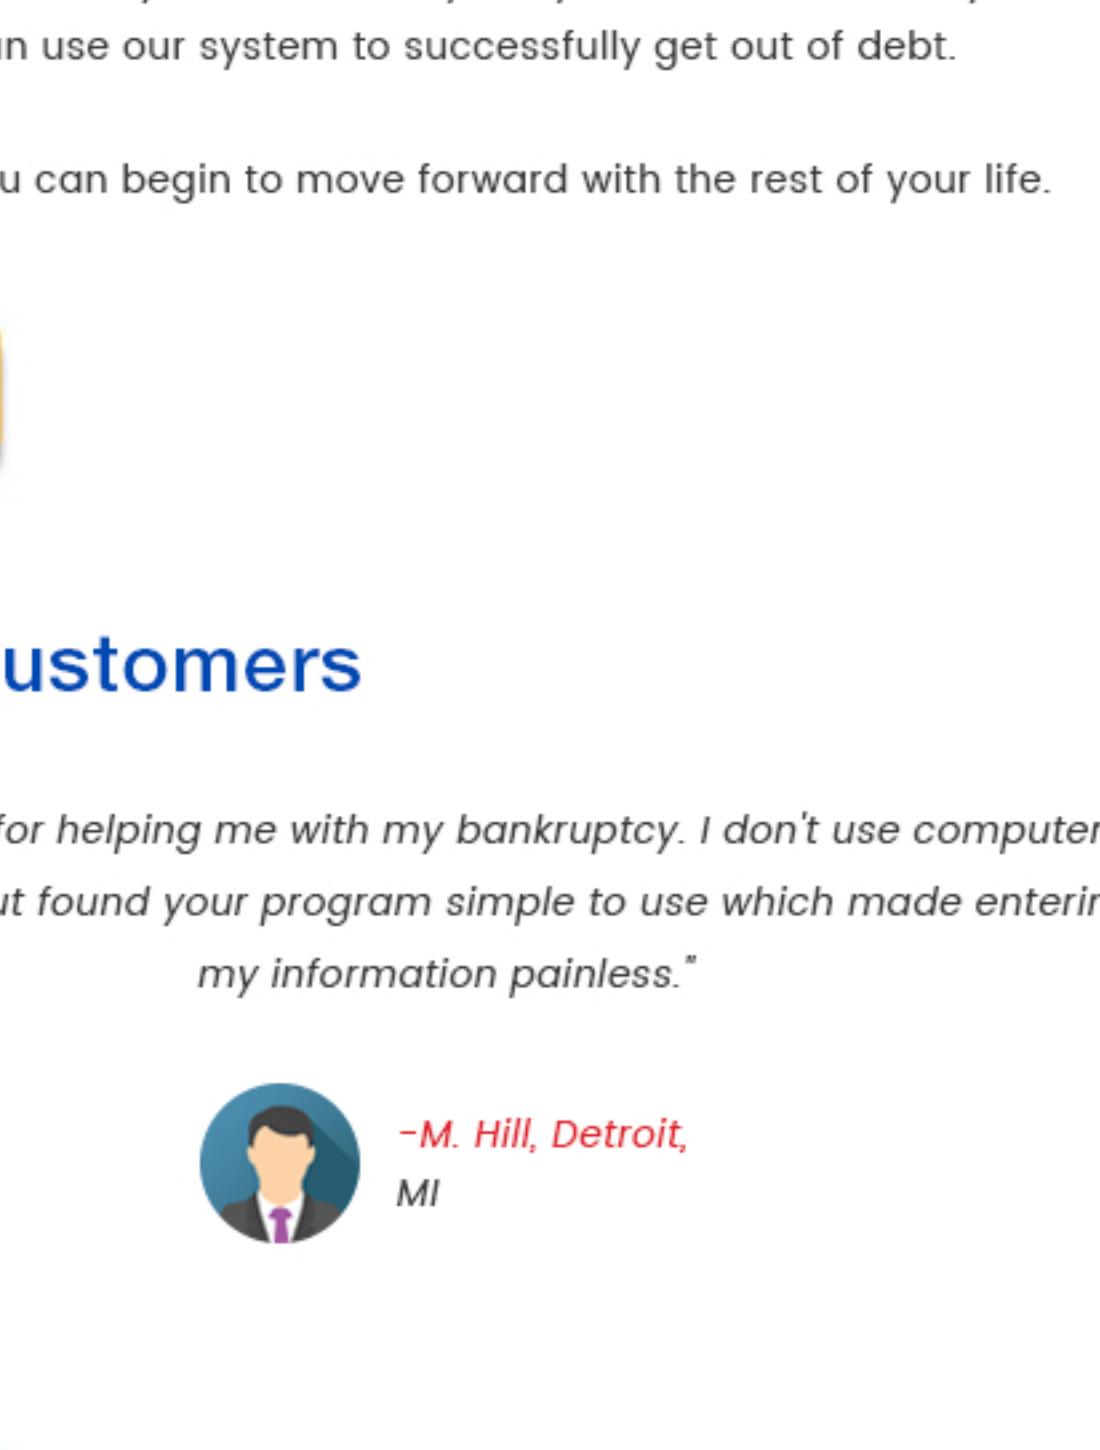

Because very shortly after you file your paperwork at the courthouse, you'll begin to get all these offers for new credit, because your name is now on public record due to your recent filing. New offers for credit will be coming out of the 'woodwork.' You'll be able to purchase a new car even if you've lost one to repossession in the recent past.

So many wonderful things will begin to happen for you. For instance, if you've never owned a home or owned one and lost it to foreclosure... just two short years after bankruptcy, if you have kept your 'nose clean,' you will qualify for government insured FHA financing to purchase your own new home.

It's amazing, because before the bankruptcy, you probably couldn't have even rented a decent apartment without a double security deposit. Now after bankruptcy, you'll qualify to own a home... Amazing! Please tell me what's not to like about that?

If you've been an apartment dweller or renter all your life, give your children or grandchildren an opportunity to one day soon live in a home they can call their very own, with their very own yard and their very own piece of the American dream to play in.

Yes, you can one day soon become a home owner because of your decision to get a fresh start today. You can thank me later... I am sure you won't regret the decision. The decisions we make today are the ones we will have to live with soon.

## No Attorney Necessary

You don't need an attorney to file bankruptcy. Bankruptcy attorneys don't want you to know that you can prepare and file a bankruptcy on your own. Another one of your constitutional rights is to file bankruptcy *'Pro Se'* which means without an attorney. Attorneys charge very high fees to do what you can do for yourself. I guess the old saying is true, *'you don't know what you don't know.'*

Listen, when you hire an attorney to file a simple Chapter 7 bankruptcy for you, he will simply have all your information input and completed by his underpaid paralegal. She will complete all the paperwork for your petition and efile it to the US Bankruptcy Court along with your filing fee.

The attorney pays her an hourly wage and reaps the lion's share of your \$1500 for simply showing up at your 341 Meeting of Creditors. It is such a joke; there is nothing with regards to filing a simple Chapter 7 bankruptcy that an overpaid lawyer does that you cannot do for yourself! Save yourself some time, headache, aggravation and money and do it yourself!

## The Downside

There is a possible downside to filing bankruptcy. It will remain on your credit report for up to ten years. But keep in mind, that if you begin to reestablish your credit, that shouldn't be a problem. Lots of people have filed bankruptcy over the years and have successfully reestablished themselves and their credit rating to A-1 status, and so can you.

## Expert Advice

The economy we are in has forced many hard-working American citizens to have to file bankruptcy. A lot of it not necessarily their fault. When your job is gone, how can you pay bills? According to financial advisor Suze Orman, it is often best to *"Claim bankruptcy, face it right on and start all over again."*

*We are all allowed a fresh start in life, right?*

*If you're feeling alone or depressed because of financial problems, cheer up! You're in good company.*

*Here is a small list of some famous people who have filed bankruptcy, gotten a fresh start and moved on with their lives:*

**Abraham Lincoln, US President**

**Burt Reynolds, actor**

**PT Barnum, circus promoter**

**Donald Trump, financier, US President**

**Thomas Jefferson, patriot and president**

**Henry Ford, auto magnate**
